

## Carillion's Southmead Sloggers

### Partnering with Shine Together

Congratulations to, Left to Right: **Robin Grimbeck**, Richard **Molloy**, **Liam Florey**, **Martin Dando** & **John Bass**!

### Shine Together

Shine together is the charity at Frenchay and Southmead hospitals in Bristol. Every year Shine Together raise over £1million to support local patients and their families.

*Hundreds of local people support us every year raising money for patient care and research projects in Bristol. Our work goes to the heart of local Bristol communities and helps provide even greater levels of care to people in our city.*

### The Dursley Dozen

Carillion is working with North Bristol NHS Trust to deliver a new hospital to the local community in Southmead, North Bristol. Once completed, this hospital will be the most sustainable development of its type in the country.

Our local project team at Southmead engage in a multitude of community related activities throughout the year. This time we focused on helping Shine Together raise funds to support their tremendous work with the Trust.

Five heroic runners from Southmead Hospital Redevelopment Project braved the snow on the ground and 2 degree temperatures to complete the Dursley Dozen.

The website dedicated to the event describes it as: *A multi-terrain race of 12 miles over hillsides, roads, woodland, open country, mud and solid rock. Very tough and scenic.*

All five came in the top 200 (out of over 400 runners)! The team have already raised over £600 for the Dreams and Wishes Fund.

The Dreams and Wishes Fund provides funding for terminally ill adult patients at North Bristol NHS Trust and is specifically used to fund patients 'dreams and wishes'.
