

## Carillion Host The Prince's Trust at Southmead

On completing the course the candidates were awarded certificates by Marguerite Doherty, the Programme Executive South West for The Prince's Trust.

### 'Get into Construction'

During March 2012, the Southmead Hospital Redevelopment Project (SHRP), alongside The Prince's Trust and Carillion Training Services Social Engagement, hosted the fifth "Get into Construction" course.

The course is designed to provide young people a taster of what it is like to work within the construction industry. During the course the candidates were able to turn their hand to carpentry and brick laying as well as gaining support ahead of their CSCS tests at the end of the week. As part of the course, the candidates were given a site tour and given the opportunity to ask questions.

After engaging with our supply chain at SHRP, the projects Skills Coordinator secured work experience placements following the course, for all of the candidates for a further two weeks. We would like to thank E & S, Reussir and Praters for their continued support.

The Prince's Trust and Carillion Training Services Social Engagement department will continue to support all the candidates for the next 6 months, providing them with a mentor.

Further courses are planned for the future and the SHRP team looks forward to welcoming another set of keen youngsters onto the project.
