

<b>Organisation</b>	The Shrewsbury and Telford Hospital NHS Trust
<b>Category</b>	Procurement
<b>Please detail your project below</b>	<p>Last year our procurement department developed a Carbon questionnaire, (which includes questions on ethical procurement) which was issued to our top 20 suppliers to complete. The questionnaire assesses supplier's attitudes to sustainable targets and we monitor their responses. We hope to repeat the questionnaire every year to plot provider's improvements and encourage them to be more proactive around sustainability. This document is also included in the prequalification questionnaire for new tenders. (Please see attached document). The Trust has an approved Sustainable Procurement Strategy in place.</p>
<b>How has your project improved sustainable development within your organisation or community setting?</b>	<p>This project has improved sustainable development within our organisation, and has put a focus on ensuring that we purchase from responsible and sustainable suppliers.</p>
<b>What role does sustainable development play within patient and staff services within your organisation?</b>	<p>Staff are working across the Trust to deliver better outcomes for our patients and local communities by reflecting our sustainable development principles. By working collectively with our patients and local communities we endeavour to improve our environment, patient experience and ensure our staff and patients are well informed and engaged with sustainability.</p>
<b>Who has led the way on sustainable development within your organisation?</b>	<p>The Trust has a lead director for sustainability (Director of Corporate Governance) and sustainable development is one of the Trust a corporate objectives of 2014/15. In March 2014 the Trust Board approved the Sustainable Development Management Plan and action plan which underpins our work around Sustainable Development.</p>
