

# Manchester Sustainability Day Roadshow

## 14th February 2019

09.00-09.30am- Registration & Exhibition

### *Session 1- Top down & bottom up approaches to embedding sustainability*

**09.30am-09.40am-** Chair Opening Address- Scott Buckler, Manager, NHS Sustainability Campaign

**09.40am-10am-** The “Greater Manchester Model” for healthcare services

In October this year Mayor of Greater Manchester, Andy Burnham, set out his vision for healthcare services in the region. This vision included commitments around financial reform, mental health and data transparency. This presentation will explore how the Greater Manchester Health and Social Care Partnership will deliver on this vision.

**Speaker- Anthony Hassall, Chief Accountable Officer, NHS Salford Clinical Commissioning Group**

**10am- 10.20am- World Most Sustainable City**

Case study – Manchester City council working in partnership with Quorn foods to become the world’s most sustainable city.

**Speaker- Alex Glenn – Sustainable cities**

**10.20am-10.40am- Delivering long-term sustainability for the NHS**

The ‘Healthier Together’ programme achieved one of the largest public consultations responses in the NHS, resulting in 12 clinical commissioning groups’ unanimous decision to change health services in Greater Manchester. October of this year saw one of the leaders of that Programme, Alex Heritage take helm as CEO of the NHS Transformation Unit. The Unit is supporting the NHS on its long-term plans for sustainability. Join us to hear how Alex led the way on changing health delivery services in Greater Manchester and how the Transformation Unit is developing people-centred approach to sustainability.

**Speaker- Alex Heritage, Chief Executive Officer, NHS Transformation Unit- Invited**

**10.40am-11am-** Saving energy across the NHS estate through staff engagement

The NHS currently spends over £544m pa on energy and staff can play a significant role in saving energy and costs. JRP Solutions will discuss how the eLearning can support employees to understand what energy is, how the use of energy impacts on our environment and how they can use less energy at home and at work to save costs and to create healthier businesses and a healthier planet.

**Speaker- Jes Rutter, Managing Director, JRP Solutions**

### **11:00am - 11:20am - How to embed reuse behaviors within your trust**

Reuse can be one of the quickest and most effective ways to deliver long-term financial savings within the NHS estate. Nerys Simmons from Manchester NHS gives you the inside track on how to embed reuse into practice across the estate.

***Speaker- Nerys Simmons, Manchester University, NHS FT***

### **11.20am-11.40am- Refreshments & Expo**

## ***Session2- Injecting finance into the NHS and creating savings***

### **11.40am- 11.55am- 'Beds or Bins' - Reducing overheads through efficient waste management**

Is the NHS evaluating its on-site waste management costs regularly? Often an area taken for granted, in some cases often overlooked. This must attend session from leading waste providers Forward Waste will explore how simple changes to on-site waste management can create significant savings, financial and environmental.

***Speakers- MJ Rose, Business Development Manager, Forward Waste***

### **11.55am- 12.15pm- In it together: Creating a whole trust approach**

Overall winners of the 2018 NHS Sustainability Awards, Guys & St Thomas's speak about the journey that they have had over the past five years, where from humble beginnings, they have grown leading to the success at the 2018 Sustainability Awards.

This presentation will concentrate on the importance of various aspects such as staff engagement, senior management buy in & their SAVE project

***Speaker-Alan Armstrong, Waste Manager, Guy's and St Thomas' NHS Foundation Trust***

### **12.15pm-12.35pm- How do we fund sustainability in the NHS?**

A recent NHS Sustainability Campaign survey highlighted concern from the NHS on funding sustainable development. Over 80% of respondents cited funding for projects as the main barrier for success. In this session, leading energy efficiency finance provider, Salix, will provide information on how you can gain interest-free funding, write a strong business case and get the cash injection you need!

***Speaker- Liam Gillard, Client Support Officer, Salix***

### **12.35pm- 12.55pm- The Town that gave up sugar**

In July this year Tameside and Glossop NHS Foundation Trust went on a 70-day sugar-free challenge to mark the NHS 70<sup>th</sup> birthday. This presentation looks at how the initiative came about, what we can learn from the results.

***Speakers- Karen James, CEO, Tameside and Glossop Integrated Care NHS Foundation Trust & Simon Smith, Head Chef- Invited***

**1pm-1.40pm- Lunch & Refreshments**

### ***Session 3- Sustainability in action***

**1.40pm-2pm- Helping major energy users in the healthcare sector to improve energy efficiency and operational performance through onsite generation**

This session will explore how trusts are improving energy efficiency, taking ownership and delivering savings through on-site generation, demand management and energy insights.

***Speaker TBC***

**2pm-2.20pm- Making a plastic pledge, how Queens Hospital, Burton, is tackling the plastic challenge and making savings!**

This must attend session will explore how the NHS is pledging to cut plastic with a fascinating insight from Queen's Hospital, Burton. The session will explore how the hospital has integrated Sterimelt technology into its Sustainable Development Management Plan and reaping the rewards. Are you looking to make plastic reductions and capture financial savings? If so this session will provide you with the tools to get going.

**Speaker- Natalie Roddis, waste and sustainability officer at Queen's Hospital, Burton**

**2.20pm-2.40pm- How smart leadership can transform the NHS**

Mark Griffiths, Operations Director, Bouygues Energy Services will present an overview of how Estates and Facilities can drive efficiencies in mobility, energy and local services in conjunction with improvements in environment, safety and security and health and wellbeing. Mark will share examples from across Europe and provide a bite-size presentation on how you can create a 'smart culture'.

**Speaker- Mark Griffiths, Operations Director, Bouygues Energy Services**

**2.40pm-3pm- Delivering Energy Savings through 'Low Cost' Interventions**

From 34 years' experience working within the hospital-built environment, it is LCE's experience that up to 30% of energy consumed within hospital buildings can be avoided through simple 'low cost' practical interventions. A range of case-study examples illustrating 'optimisation measures' relating to existing plant and equipment, will be presented along with implementation costs and the energy savings achieved.

**Speaker: Darren Jones, Managing Director, Low Carbon Europe (LCE)**
